

**YNHP Biological Working Group Recommendations Regarding Covered Species List**

**May 2010**

<b>Species</b>	<b>Current NHP Status</b>	<b>Status Proposed</b>	<b>BWG Recommendation</b>	<b>Rationale</b>
Jepson’s milk-vetch <i>(Astragalus rattanii</i> <i>var. jepsonianus)</i>	None	Add	Species of Local Concern	Meets criteria as applied to other NHP covered species
Heartscale ( <i>Atriplex cordulata</i> )	None	Add	Species of Local Concern	Meets criteria as applied to other NHP covered species
Vernal pool smallscale ( <i>Atriplex persistens</i> )	None	Add	Species of Local Concern	Meets criteria as applied to other NHP covered species
Round-leaf fillaree ( <i>Erodium macrophyllum</i> )	None	Add	Species of Local Concern	Meets criteria as applied to other NHP covered species
San Joaquin pocket mouse ( <i>Perognathus inornatus</i> )	None	Add	Species of Local Concern	Meets criteria as applied to other NHP covered species
Purple Martin	Species of Local Concern	Covered Species	Covered Species	Reasonable potential for listing; effects of covered activities if species begins nesting on bridges.
Redhead (nesting)	Species of Local Concern	Covered Species	Retain as species of Local Concern.	Potential effects highly localized, and likely avoidable. Unlikely to be listed during term of the plan.
Sacramento Valley red fox population	None	TBD	Obtain add’l information prior to making a recommendation	Potential effects likely, but questions exist regarding population status and potential for listing.
Least Bell’s Vireo	None	Covered Species	Covered Species	Listed species; likely to establish in Yolo Co. over term of the plan.
