

1 *Note to reviewers: the revised outline below is in response to comments and*  
2 *suggestions received on the draft conservation strategy components released to*  
3 *date.*

4  
5 **DRAFT**  
6 **REVISED**

7 **Chapter 5 Conservation Strategy Outline**  
8

9 **5.1 Introduction**

10 **5.2 Methods and Approach**

11 **5.2.1 Geographic Organization**

12 **5.2.2 Species-Habitat Predictive Models**

13 **5.2.3 Agricultural Forecasting Model**

14 **5.2.4 Mitigation Approach and Requirements**

15 **5.2.5 Assembly of Conservation Lands**

16 **5.2.5.1 Conservation Land Assembly Rules**

17 *[This section will roll up the draft assembly rules for each of the Landscape Units]*

18 **5.2.5.2 Existing Protected Lands**

19 *[This section will described protected land status categories and describe how*  
20 *distribution of existing protected habitats were used to build the conservation strategy]*

21 **5.2.5.3 Relationship to the Bay Delta Conservation Plan**

22 *[This section will describe synergies between Yolo NHP and BDCP in areas of overlap]*

23 **5.3 Biological Goals and Objectives**

24 **5.3.1 Methods for Developing Goals and Objectives**

25 **5.3.1.1 Establishment of Natural Community Goals and Objectives**

26 **5.3.1.2 Establishment of Covered Species Goals and Objectives**

27 **5.3.2 Goal and Objective Statements**

28 **5.3.2.1 Landscape-Level Goals and Objectives**

29 **5.3.2.2 Natural Community-Level Goals and Objectives**

30 **5.3.2.3 Species-Level Goals and Objectives**

31 **5.4 Conservation Measures**

1 *[This section will combine the draft Landscape Unit conservation measures as*  
2 *appropriate and organize them to be parallel to biological goal and objective scale*  
3 *structure]*

4       **5.4.1 Landscape Conservation Measures**

5       **5.4.2 Natural Community Conservation Measures**

6       **5.4.3 Species-Specific Conservation Measures**

7       **5.4.4 Avoidance and Minimization Measures**

8       **5.6 Approach to Providing for the Conservation of Covered Species and Their**  
9       **Habitats**

10 *[This section will describe how the conservation measures provide for conservation and*  
11 *mitigation of each of the covered species.]*

12       **5.7 Approach to Providing for the Conservation of Local Concern Species and**  
13       **Their Habitats**

14 *[This section will describe how the conservation measures provide for conservation of*  
15 *each of the covered species.]*

16       **5.8 Monitoring and Research Plan**

17       **5.9 Adaptive Management**

DRAFT
